Accelerate Workshop Series for game-changing leaders

In this hyper-connected age, everything is moving faster than ever before. With knowledge and information available at the click of a button, traditional business rules no longer apply – nor do conventional leadership roles. Today's leaders are expected to inspire, enlighten and empower, all while maintaining a high degree of integrity. Not only do they have more to live up to, they also have less time to grow into their roles – which is why the Accelerate Workshop Series was created.

MODULE 1 Unleashing Your Leadership Energy

21 March, Kuala Lumpur

What drives leaders to success? In this one-day workshop, you will learn to harness the leadership energy within you to drive change, enhance productivity and build resonance for success. It's time to become the leader you were meant to be.

MODULE 2 Making Wise Decisions

19 April, Kuala Lumpur

Is it enough to make a good decision, when you are in the position to make a wise one? In this one-day workshop, discover how you can recognise and overcome subconscious biases that limit decision-making, then use a balanced considerative approach to make clearer, wiser decisions.

MODULE 3 Mastering Integrated Thinking

4 May, Kuala Lumpur

In this age of technological disruption, where everything can be learnt and copied almost instantly, creativity is the only differentiation. Without integrating creative thinking into business, it's an uphill task to stay competitive – and relevant. In this one-day workshop, you will engage right-brain thinking to create holistic solutions to complex problems – and disrupt the status quo.

MODULE 4 Successfully Managing Organisation Politics

15 June, Kuala Lumpur

Can organisational politics actually be a good thing? Only if you know how to navigate them with high integrity. In this one-day workshop, you will gain new insights into the dynamics of office politics, explore strategies to deal with it in positive ways and turn it into one of the most powerful weapons in your leadership arsenal.

MODULE 5 Creating Catalytic Conversations

12 July, Kuala Lumpur

How engaging are your conversations? In this one-day workshop, explore the art and science of managing critical conversations to inspire, motivate and become a catalyst for mutual achievements.

MODULE 6 Be the Change

11–12 Sept, Kuala Lumpur

How do leaders stay strong in the face of formidable odds? In this 2-day workshop, you will draw on diverse influences, from ancient Eastern philosophy to metaphysics, to understand what it takes to be a great leader.

All the workshops will be held at The ICLIF Learning Centre
Level 5, Block A, Platinum Sentral, Jalan Stesen Sentral, Kuala Lumpur

4 May 2017

The world's largest taxi company owns no cars, and employs no drivers directly. The world's largest hotel service owns no properties and employs no housekeeping or room service staff. Communication has been Whatsapped, memories Instagrammed, and professional network Linkedined. Almost everything we knew as normal in both business and social life has changed dramatically just in the last 15 years. We now live and work in the age of 24/7 connectivity where knowledge is free and abundant, and where everyone is empowered.

“What do Ebay, Skype, Whatsapp, LinkedIn, Uber, PayPal, AirBnB and Amazon have in common? They were each created by players outside their core industry. Their business models emerged by combining already existing inventions into integrated innovations. How did they manage to have this creativity to achieve breakthrough success? Where did the inspiration come from? Is it an in-born talent or something that can be cultivated? The good news is everyone can develop left and right brain acumen, which is central to achieving integrated thinking.
